Dear Commissioner, President, Supervisor and EDPB Chair

EU bulk processing of information in the age of AI and cyber attacks

I write further to my yesterday's letter that will be available online [here](#) shortly to ensure transparency and accountability of EU institutions.

This morning I woke up to the [news](#) of yet another AI agentic cyber-attack:

Today's incident makes the requests contained in yesterday's letter, in particular in relation to a of a temporary moratorium and thorough data security audit of all EU and EU Member States' systems that hold sensitive personal and financial data of individuals and businesses pursuant to measures requiring a bulk collection of information enacted by the EU.

Best regards,

Filippo Nosedà
